

# XI Audio

## Kundenpreisliste

	<p><b>Formula S Headphone Amplifier</b> – Six watt dual mono amplifiers deliver stunning speed and clarity, with hard hitting bass and drums and beautifully smooth tube-like perception, the Formula S amp is tuned for the highest resolution music and headphones. Impeccable balance, smooth and clear to the source, excellent bass definition, simply an excellent amp. And it's stout size takes up less real estate on your desktop.</p>	<p><u>VK</u> 4.500,00 €</p>
	<p><b>POWERMAN</b> – Optional external power supply upgrade for the Formula S amplifier for extreme noise free power and the highest resolution possible.</p>	<p><u>VK</u> 2.800,00 €</p>
	<p><b>Broadway</b> – The world's first high performance fully balanced Li Ion battery discrete class A headphone amplifier by XI Audio combines smooth detailed sound lacking any power supply noise or AC line interaction. Amazing low level detail, smooth very real mids and vocals, and clear highs just begin to describe how good this amp is! Transportable weight and size.</p>	<p><u>VK</u> 2.600,00 €</p>
	<p><b>Broadway S</b> – Ultra low noise single ended RCA version of the above for high sensitivity IEM headphones</p>	<p><u>VK</u> 1.649,00 €</p>
